

Alex Rivera

alex.rivera@example.com | +1 (415) 555-0182 | Seattle, WA

Summary

Full-stack engineer; nine years on distributed backends, plus toy C++ systems for fun.

Skills

Proficient: Python, JavaScript, TypeScript, SQL

Experienced: React, Django, Node.js, Docker, PostgreSQL

Familiar: Rust, Go, Kubernetes, GraphQL, Redis, Terraform

Experience

Senior Software Engineer at Cloudscale Systems May 2021 – Current

Built and operated multi-region ingestion services handling billions of events a day.

Software Engineer at Brightline Analytics July 2016 – March 2019

Owned the reporting pipeline and migrated a monolith to a service-oriented design.

Junior Software Engineer at Harbor Logistics July 2012 – March 2016

Wrote internal tooling and shipped the first version of the customer dashboard.

Projects

Chess Engine — a bitboard chess engine written in C++ with alpha-beta search.

Support Chatbot — a retrieval chatbot built in C# over an internal knowledge base.

Education

Washington State University — BS Computer Science. Cum. GPA: 3.85/4.0. Graduated 2012.
